EDITORIAL PROGRAMME 2018

January-February

Intermat - Preview

Maximise your investment at the biggest construction show this year and advertise your presence and stand location in these issues.

March-April

Intermat - Show Guide

Demolition Excavators

An increased focus on safety and high profile collaborations in product development are creating more opportunities for the high reach excavator. *D&Ri* brings you up to date.

Mobile Crushing

A look at what happens next when demolition is only the beginning. What are suppliers of mobile crushing equipment bringing to the process?

Specialised Transport

With larger equipment now commonplace in an increasing number of locations, how do demolition companies get it to site? We profile a range of solutions.

North America

Ahead of the National Demolition Association's Demolition 2018 event in Austin, Texas, we bring you the latest trends from the industry in the USA and Canada.

Cranes in Demolition

Sometimes even the highest of high reach excavators is not enough and a demolition job needs a crane's balance of power, versatility and safety.

Mobile Screening

A look at the steps involved in taking the equipment to the material for screening, rather than the other way round, and how fine the margins can be.

Aggregate Washing

The recycled aggregates sector has been the start point for some significant investments in equipment and premises. How does an effective project work?

Explosive Demolition

Explosive demolition is widely viewed as the ultimate "one take" method of taking down a structure. We talk to the specialists in this part of the industry.

May-June

D&Ri100

The demolition industry's only global listing of contractors by turnover returns. Will the total value exceed US \$6 billion again, and who will be the new entries?

Compact crushing

Design trends, product launches and application stories involving compact crushers and screens form the basis of this issue's compact crushing feature.

Dust Control

Dust control and suppression is a vital part of demolition as environmental and health and safety legislation continues to influence how projects are executed.

Hillhead

The United Kingdom's quarry-based construction exhibition takes place every two years. *D&Ri* takes you through the new products that will be on show in 2018.

Remote control

We examine developments in those demolition projects where the space involved is either too small - or too dangerous - for traditional methods to work.

An excellent promotional opportunity as it is constantly referred to for information

SIGNET ADSTUDY®

How effective is your advertising message?

D&Ri has commissioned Signet Research inc. to help you find out. The objective of the Signet AdStudy® is to measure recall and readership of the advertisements that appear in a particular issue.

Why do you need this?

- Provide your marketing team with insights that really help shape the strategic direction of your brand
- Measure the awareness, familiarity and perception of your brand
- Independent brand feedback from our readers (your clients)
- Head-to-head analysis against your competitors

All half page or larger advertisements in the July/August issue of the magazine will receive a **FREE Signet AdStudy®**

July-August

Advertise in this issue and receive a **FREE** insertion in the *D&Ri Buyers' Guide* - the leading source of demolition equipment.

Attachments

By offering multiple options for a single product, attachments have established a secure place in modern demolition. So what's happening in crushers, pulverisers and shears?

Excavators

How manufacturers, engine suppliers, attachment companies and end users are combining to meet the latest requirements in excavator technology, from minis to their larger counterparts.

Health and Safety

Regularly cited as the single most important factor in any demolition job, contractors are resourcing, monitoring and managing health and safety as never before.

D&Ri100 'headliners'

In a new feature, we follow the *D&Ri100* listing with an in-depth look at some of the companies who have enjoyed increased revenues in the past 12 months.

Industrial Demolition

Two words, but a multitude of possibilities. As manufacturing industry and the buildings required for it change continuously, we feature the companies and projects enabling the change.

September-October

SPECIAL SUPPLEMENT World Demolition Summit

Taking place in its traditional autumn slot, the WDS will again combine a technical conference and awards ceremony. See the full programme and check out the awards shortlist.
DISTRIBUTED TO ALL DELEGATES AT THE SUMMIT.

Breakers

Looking back at another year in the life of the hydraulic breaker, and forward to how their role might evolve in the future.

Concrete Cutting

Ahead of the World of Concrete preview in the November-December issue, we look at developments in the specialist application area of concrete cutting.

Bauma China Preview

China's major construction show is being viewed more and more as a signpost of both the country's economic fortunes and worldwide trends. *D&Ri* previews the event.

Rental

How are demolition equipment manufacturers and suppliers tapping into the multi-billion dollar global equipment rental market? Where will the business opportunities come from?

November-December

World Demolition Awards

Up to a dozen winners will have enjoyed the spotlight at the 2018 awards. Find out more about their winning entries and other highly rated projects in this special feature.

Compact Equipment

Can manufacturers continue to meet their customers' diverse objectives of machine size, performance and lifetime cost - all while remaining environmentally friendly?

World of Concrete Preview

Preview of the annual United States-based showcase for leading suppliers in the concrete industry. Discover which companies have new products and learn the latest initiatives for visitors.

2019 Confidence Report

It's the year that Brexit kicks in and it's the mid-point of the Trump administration's term. What are the world's demolition companies expecting in, and for, 2019?

Nuclear Decommissioning

Nuclear decommissioning is lucrative work if you can get it, but it also brings its own kind of pressure. *D&Ri* looks inside some high profile projects.

Signet Ad Study quotes

The advertising in *D&Ri* educates and is an important part of the publication

I read through *D&Ri* as much for the advertising as for the articles.

Companies that advertise build trust and are seen as a reliable source.

It gives much information about the latest worldwide trend in demolition business. It also helps to buy equipment and machineries related to demolition business.
